

§ 1214.108

14 CFR Ch. V (1–1–01 Edition)

§ 1214.108 Termination.

(a) Customers terminating the launch of a payload will pay a termination fee for standard services to NASA.

(1) The termination fee for dedicated flights will be computed as a percentage of the Shuttle standard flight price and will be based on the table below.

Months before scheduled launch date when termination occurs	Termination fee, percent of Shuttle standard flight price
18 or more	10
17 or more but less than 18	11
16 or more but less than 17	12
15 or more but less than 16	13
14 or more but less than 15	15
13 or more but less than 14	16
12 or more but less than 13	17
11 or more but less than 12	18
10 or more but less than 11	19
9 or more but less than 10	20
8 or more but less than 9	22
7 or more but less than 8	23
6 or more but less than 7	24
Less than 6	25

(2) The termination fee for shared flights will be the sum of all payments previously paid or due for the standard flight price, as defined in § 1214.103(h)(2), at the time of termination.

(b) NASA may establish, in the launch agreement, certain conditions under which the customer may terminate a payload launch with reduced termination fees if NASA delays the launch of the customer's payload for an extended period.

(c) Customers terminating the flight of a payload may also be subject to new or additional charges for optional services.

§ 1214.109 Scheduling.

(a) *Establishment of a launch date.* (1) NASA will assign a tentative launch date for a payload only after NASA's receipt, review and acceptance of a customer-submitted NASA Form 1628 requesting flight assignment and NASA's receipt of the customer's earnest money.

(2) NASA's confirmation of a particular launch date will be at the time a launch services agreement is signed, normally not later than 36 months prior to the desired launch date.

(b) *NASA changes to launch date.* NASA will attempt to maintain the

customer's launch date as long as the customer's obligations, as established by NASA, are met. However, NASA may revise the launch date under those circumstances contained in the launch agreement. If practical, NASA launch date changes will be in consultation with the customer; however, NASA reserves the unilateral right to make decisions with regard to launch schedules.

(c) *Payload delivery.* NASA, in consultation with the customer, will establish a date for payload delivery to the launch site.

(d) *Reflight scheduling.* NASA will attempt to schedule a payload reflight at the earliest opportunity, but normally no earlier than 14 months after a determination is made that a customer is entitled to, and in fact requests a reflight.

§ 1214.110 Reflight.

(a) NASA will provide a reflight of a customer's payload under conditions defined in the launch agreement. The standard flight price for reflights will be based on NASA's marginal cost as defined in § 1214.102(f). Reflights only apply to dedicated flights and those shared-flight payloads that can be accommodated on a standard launch as defined in § 1214.117.

(b) Reflights as defined in this § 1214.110 apply only to the same payload involved in the launch that necessitated the reflight, or to an essentially identical payload with essentially identical integration and flight operations requirements.

§ 1214.111 Rendezvous services.

(a) A rendezvous mission involves the rendezvous of the Space Shuttle orbiter with an orbiting spacecraft for one or more of the following purposes:

(1) Retrieval and return to Earth of the orbiting spacecraft (or part thereof), including a spacecraft deployed earlier on the same Space Shuttle flight.

(2) Exchange of a spacecraft (or part thereof) delivered to orbit on a particular Space Shuttle mission for an already orbiting spacecraft (or part thereof) and return of already orbiting spacecraft to Earth.
